

*Fog at Nobska Point (2010)* describes a magical place on Cape Cod that I have visited nearly every summer of my life. Surrounded by water, the rocky point offers views in all directions on a clear day—of Vineyard Sound, Martha’s Vineyard, the Elizabeth Islands, Woods Hole, and Buzzards Bay. In the fog, it becomes an intricate and mysterious soundscape of warning signals—foghorns, lights, bell buoys, and ships' whistles.
